Abstract

This article describes not only the dynamics of the recent COVID-19 pandemic but also comprehensively discusses the diagnosis, treatment, variants and vaccines as well as preparedness key points. Up to the publication date, the virus took more than 6,5 million lives globally and is one of the deadliest pathogens of modern times.

Streszczenie

W tym artykule opisano nie tylko dynamikę ostatniej pandemii COVID-19, ale także kompleksowo omówiono diagnostykę, leczenie, warianty i szczepionki, a także kluczowe punkty gotowości. Do dnia publikacji wirus pochłonął ponad 6,5 miliona istnień ludzkich na całym świecie i jest jednym z najgroźniejszych patogenów współczesnych czasów.

Key words: SARS-CoV-2, coronavirus, COVID-19, pandemic, dynamics

Słowa kluczowe: SARS-CoV-2, koronawirus, COVID-19, pandemia, dynamika

Conflict of interest: none declared.
